

60-100 Suggested revision work for the topic of Formal Logic

There is no need to hand this work in.

Doing this suggested work will help you revise for the question on the final exam on the topic of Formal Logic.

- 1) Read section 12 of the notes “An Introduction to Formal Logic”.
- 2) Review the lecture slides 22 and 23.
- 3) Answer question 10 from the final exams from 2006, 2007, 2009, and 2010.
- 4) Check your answers against the answers which are available by following the link at the top of the course web site.

NOTE: As part of your revision for the final exam, you should attempt all questions from previous final exams (except those involving “closure” which was not covered in the 2011 Fall offering and which you will not be tested on).
